Clothing Name Stamp

Important information

- The clothing name stamp uses quick-drying ink and therefore needs to be refilled every 3 months.
- You only need two drops in each hole for a total of 6 drops per stamp. To make your stamp last a long time (up to 6,000 imprints with a refill), we recommend ordering a refill as well.
- When applied correctly, it holds very well and for a long time. Lasts up to 20 washes at 40 C depending on detergent, water and fabric type.
- The clothing stamp is not permanent and is used for temporary marking of garments.
- Avoid using fabric softener, stain remover and laundry disinfectant when washing clothes with the imprint.
- It is recommended to use it on smooth absorbent materials, they are more suitable than e.g. fleece or thermal fabrics.
- When ironing, avoid applying steam to the area where the stamp impression is located.
