please do not hesitate to contact us.

WARNING: Important information regarding use with children.

Always remember that a sticker is not a toy and should be applied by an adult or under adult supervision. All our stickers are highly durable but not permanent. Stickers can be removed by peeling and can be swallowed by a child. Please take care and check the condition of the sticker regularly to prevent this happening.

Our stickers are intended for children over the age of 3.

# Wallstickers

## Important information

- Wall stickers adhere to walls with a variety of finishes, but stick best to smooth walls. However, you should always press the sticker firmly against the wall when applying it. The more textured the wall, the harder the sticker must be pressed against the wall.
- Wall stickers can be reapplied repeatedly without the risk of damaging the sticker or the wall.
- You can apply smaller stickers on your own. Larger stickers are better applied in pairs for easier handling.
- Stickers can be easily removed by slowly peeling them off the wall. No glue or other dirt will be left on the wall.

## Instructions for applying wallstickers

- 1 Application on the wall**  
If you have just painted, it is recommended that you allow the paint to dry for at least 4 weeks before applying the wallstickers.
- 2 Gently apply and press**  
Peel the sticker from the sheet and press it firmly and evenly onto the surface, free from dirt and grease.
- 3 Take care of the adhesive surface**  
Do not allow your fingers to come into contact with the adhesive surface of the sticker.
- 4 Smooth the edges**  
Press on the edges of the sticker until it is completely adhered, smoothing the corners and pressing out any air bubbles.
- 5 Repeated application**  
Is the sticker in the wrong position? Never mind! You can reposition the wallstickers until you are happy with the result.
